## **About Learning English Curriculum Ltd.**

Learning English Curriculum began in Czechoslovakia in 1990. Shortly after the Velvet Revolution that freed the country of Communism. The authors began writing these lessons as they taught English to their Czech Students at the English Centre in Karlovy Vary. The students played a vital role in the development of this series. The authors consulted with them by having them complete student surveys wherein they rated the extensive variety of activities and lessons that they had participated in. Discussion of the results followed and any item that was rated below 8, on a scale of 1 to 10, was discarded. Thus, Learning English Curriculum evolved through consultation with our English second language students.

Since 20095 thousands of people around the world have visited our web sites. At this time purchases of our Teen-Adult Curriculum, Children's Curriculum, Children's Storybooks and our listening programs have been made from more than 100 countries.

At Learning English Curriculum, we have a suggestion regarding the printing of our books in an economical and environmentally friendly way. It is our experience that when students begin something new there are always those that, for a number of reasons, don't continue. In order to cut expenses and avoid wasting paper, we suggest that you begin the classes by providing only the first lessons of the printed book. These small things do make a difference.
